## **Agency exceeds \$1,000,000 mark in additional Interest funds for clients**

**Tampa, FL, November 11, 2008** - Hunter Warfield, Inc. (HWI), a firm specializing in debt collection and asset investigation, has announced the recovery of over a million dollars in additional funds owed it clients due to a newly initiated program to collect interest on multi-housing debt. Hunter Warfield's clients, who own and manage properties from coast to coast, are seeing the benefits of interest and are increasing collection revenue amounts at a much faster pace.

"The value-added service of charging interest in strict accordance with state laws is allowing us to collect more and charge less," said Stephen Sobota, Chief Executive Officer of Hunter Warfield. "Additionally, there are no upfront costs to our clients. The program expenses are fully funded by Hunter Warfield".
